

橫式

被除數 ÷ 除數 = 商 ... 餘數

(                    ) ÷ (                    ) = (                    ) ... (                    )

直式計算

The diagram shows a vertical division setup. At the top, there are two coins: a silver 10-yuan coin and a red 1-yuan coin. Below them are two columns labeled '十' (Tens) and '個' (Units). A horizontal line is drawn across the columns. To the left of this line is a green square representing the dividend, with a curved arrow pointing to the '十' column. Below the line, there are two more columns labeled '十' and '個' in green, with a dashed vertical line between them. To the right of these columns are two circles containing the characters '十' and '個'. Below these is a third column labeled '餘' (Remainder) in a grey box, with a circle containing the character '餘' to its right.
