

Upside-down rhino experiment wins Ig Nobel Prize (搞笑諾貝爾獎)

13th September, 2021

Everyone is familiar with the Nobel Prizes, which are awarded for physics, chemistry, medicine, literature, and peace. These are given to those who have contributed "the greatest benefit to humankind". However, fewer people are aware

of the Ig Nobel Prize. This is bestowed to "honor achievements that first make people laugh, and then make them think". One of this year's Ig Nobel awards has been given to scientists who experimented on the effects on rhinoceroses of hanging them upside down. The rhino study won the award for transportation research. Researchers from Cornell University were trying to **ascertain** the healthiest way to relocate the animals by helicopter.

The Ig Nobel prizes are organized by the science humor magazine Annals of **Improbable Research**. Wikipedia says: "The Ig Nobel Prize is a **satirical** prize awarded annually since 1991 to celebrate ten unusual or trivial achievements in scientific research." It added: "The name of the award is a pun on the Nobel Prize, which it **parodies**, and on the word ignoble (not noble)." Other recipients of this year's award studied the bacteria in chewing gum stuck to pavements, conducted tests on forms of cat communication, and carried out research on whether humans evolved to grow beards to protect themselves from punches to the face. All award winners receive a now-**defunct** Zimbabwean \$10 trillion note.

Role Play

Role A – Rhinos

You think rhinos are the best animals. Tell the others three reasons why. Tell them what is wrong with their animals. Also, tell the others which is the least useful of these (and why): hippos, bears or kangaroos.

Role B – Hippos

You think hippos are the best animals. Tell the others three reasons why. Tell them what is wrong with their animals. Also, tell the others which is the least useful of these (and why): rhinos, bears or kangaroos.

Role C – Bears

You think bears are the best animals. Tell the others three reasons why. Tell them what is wrong with their animals. Also, tell the others which is the least useful of these (and why): hippos, rhinos or kangaroos.

Role D – Kangaroos

You think kangaroos are the best animals. Tell the others three reasons why. Tell them what is wrong with their animals. Also, tell the others which is the least useful of these (and why): hippos, bears or rhinos.

Speaking – Animals

Rank these with your partner. Put the best animals at the top. Change partners often and share your rankings.

- | | |
|-------------|-------------|
| • Lions | • Rhinos |
| • Bears | • Hippos |
| • Cows | • Elephants |
| • Kangaroos | • Buffalo |
