

學生習作指導

出現容易犯錯的定位數字

十位 個位

5 10

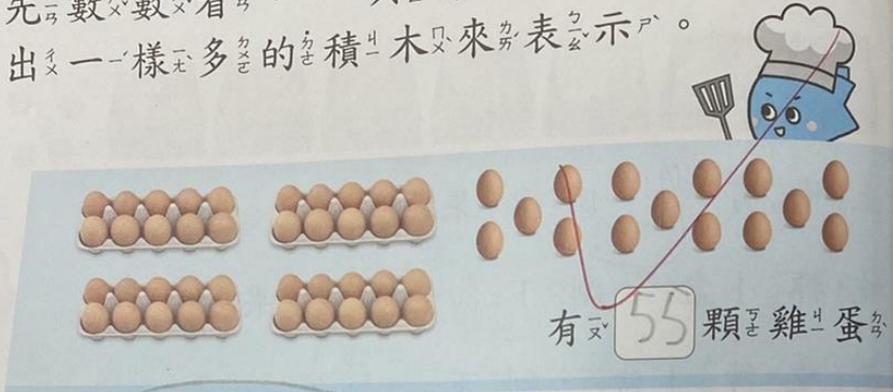

6 14

需再加以導正

**活動3** 認識一個位和十位

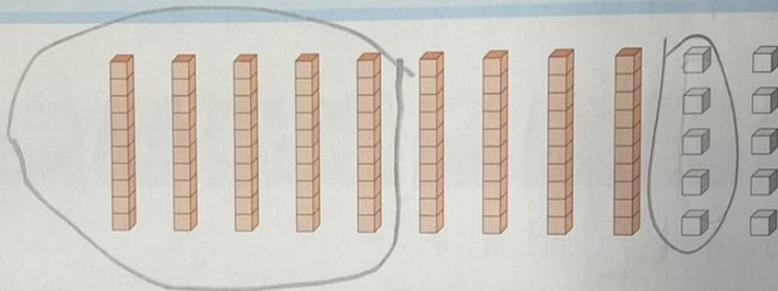

1 先數數看，一共有幾顆雞蛋？再圈出一樣多的積木來表示。

1

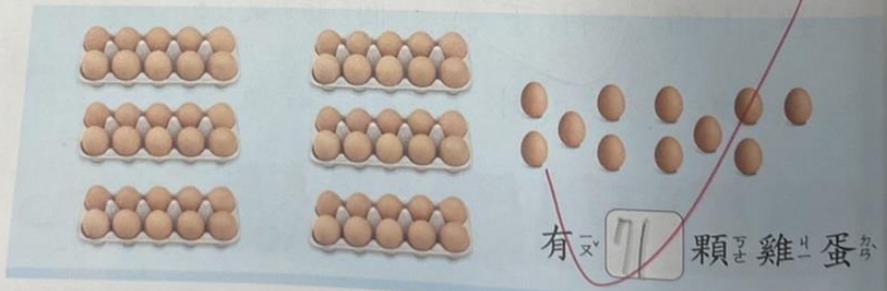

Activity 1 shows a blue tray with 4 egg cartons (each containing 10 eggs) and a group of 5 loose eggs. A red line connects the 5 loose eggs to a box containing the number 55. A cartoon chef character is also present.

有  顆雞蛋

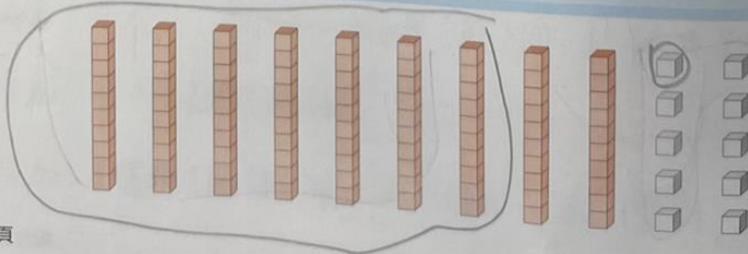

Activity 1 block counting shows 10 vertical blocks of 10 cubes each and 5 individual cubes. A hand-drawn circle encloses the 10 blocks, and another hand-drawn circle encloses the 5 individual cubes.

2

Activity 2 shows a blue tray with 6 egg cartons (each containing 10 eggs) and a group of 11 loose eggs. A red line connects the 11 loose eggs to a box containing the number 71.

有  顆雞蛋

Activity 2 block counting shows 7 vertical blocks of 10 cubes each and 11 individual cubes. A hand-drawn circle encloses the 7 blocks, and another hand-drawn circle encloses the 11 individual cubes.
