

Make Ball Globes

You have learned about continents, oceans and coordinate.
Now, you will get to use your skills to make ball globe!

Materials

- Ball Globe pack
- Crayons or markers
- Scissors
- Glue
- Large blue ball
- String
- Permanent marker
- Map or globe for reference.

Directions

1. Color and cut out the continents.
2. Color and cut out the continent and ocean labels.
3. Glue the continent labels onto the pictures of the continents.
4. Blow up your blue ball.
5. Glue the North Pole where you tie your ball.
6. Draw the Prime Meridian and Equator to divide your ball into hemispheres.
7. Using a map for guidance, glue the labeled continents where they should be located on your ball globe.
8. Glue the ocean labels onto your balloon globe.
9. Glue the compass onto your globe. Be careful that the directions are pointed the correct way.
10. Tie a string onto your ball to hang.
