

【單元教學實施後】

課程教學發現、省思與修正

單元課程教學自我評核： 滿意 尚可 有待加油

1. 關於【素養導向】課程教學原則之教學自評與省思

It's great that the lesson aims to introduce Turkish culture, including various aspects such as food, religion, and geography. This will help broaden students' understanding of different cultures. Also, the inclusion of the topic of lab-grown meat is interesting as it connects the cultural aspect with a current and relevant scientific topic. However, It would be beneficial to specify the specific cultural aspects and topics that will be covered in each section to provide more clarity and structure to the lesson.

2. 關於所進行之課程「教學重點與步驟」之教學自評與省思

It's helpful to mention the grade level of the students, as it gives an idea of their language proficiency and what can be expected from them in terms of understanding and participation. However, it would be beneficial to provide more information about the specific language skills or objectives that will be focused on during the lesson.

3. 未來策進的方向與作為

It would be helpful to provide specific examples or guidelines on how students will be utilizing the tablets and online resources during the lesson to ensure they are effectively engaged and guided in their learning.
