

How do usually spend weekends? Some may iust stay at home to checks cellphones or watch TV. While others may go shopping or jogging. There is a meaningful activity organized by the Chanhua County Government ever year called beach clean-up. My friends and I will attend it this year to make our weekend more different. L et me intrduce the contents to you.

The beach clean-up activity take places at Lukang Hambao Wetland Beach every year. Volunteers. Including me, will gather there in the early morning and be divided into some groups to do different tasks. Since I have been always interested in the issue of environment improvements and community developments,this is a great opportunity for me to know them better. That day, hundreds of people gathered at the beach just like a carnival.To make activity proceed smoothly, everyone equipped oneself well. They bring some useful tools such as gloves, tongs. shovels,trash bags,and so on. The beach was full of laughing and the minds were full of happiness. Near the end of activity, we collected tons of various man-made garbage.The scene really scare me. My friend and I looked at the beach and said”How beautiful the beach used to be without the trash.”

After attending the beach clean-up activity. it gave me some enlightenment. People in the world must pay more attention to our environments.It won’t spend us a lot of money or cost us much time. Just a little effort in the daily life, it will be a great help to our Mother Earth. I promise myself and encourage my friends to take part in the meaningful activity every year.
